PROPELLER ASSEMBLY LINE

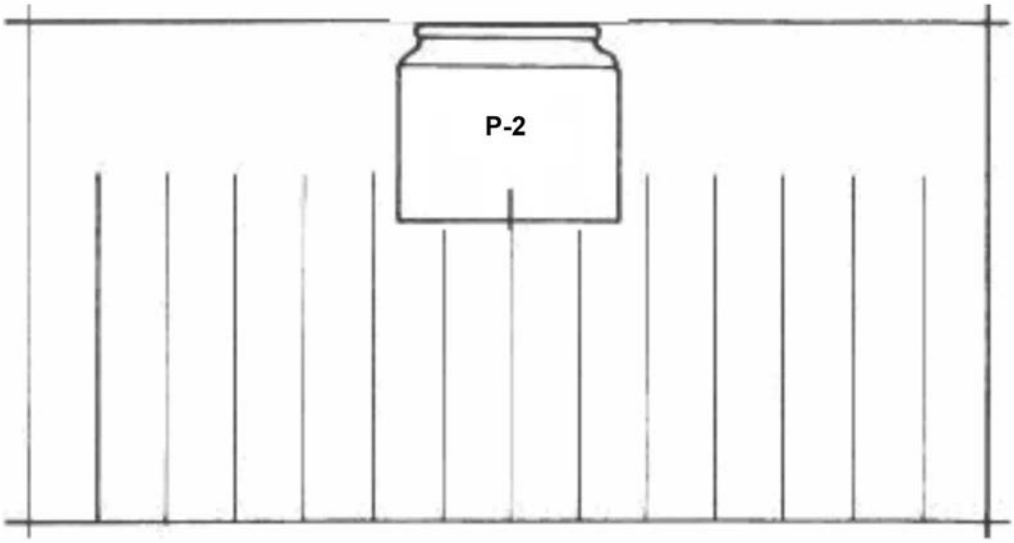

Director Cadets 3, 2007, Ottawa, ON: Department of National Defence

Figure AF-1 Propeller Assembly Line

For each aluminum model biplane to be constructed:

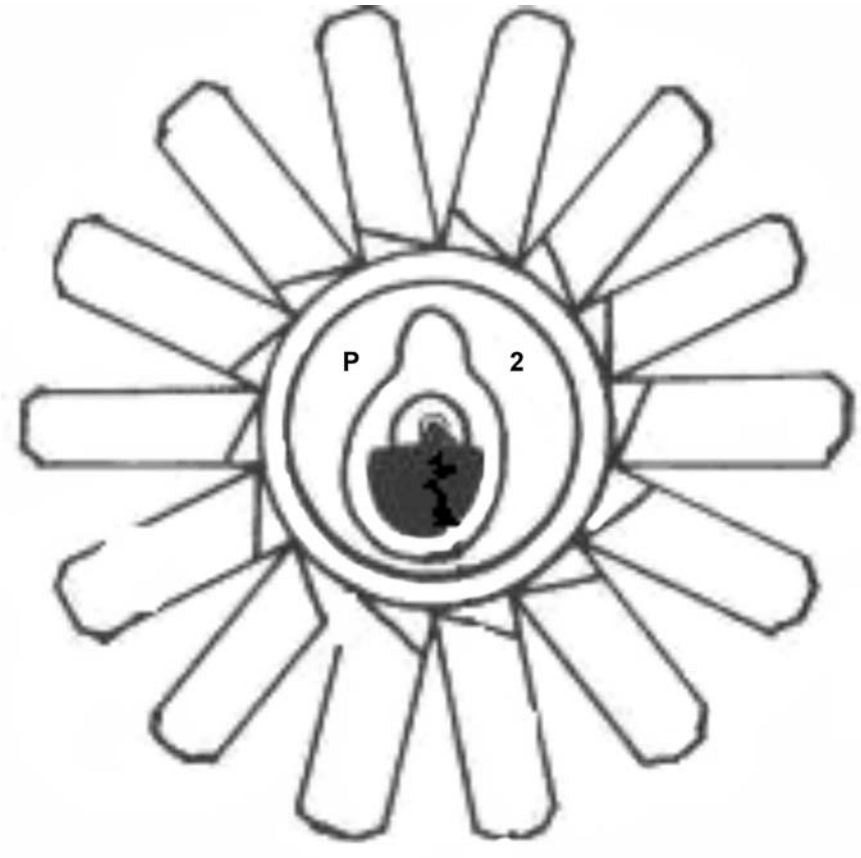

1. Place fan propeller template over part P-2 (from stock) and mark propeller blades of part P-2.
2. Cut propeller blades into part P-2.
3. Bend propeller blades out from part P-2 (Figure 17AF-3).
4. Trim propeller blade tip corner edges (completed propeller to stock).
